EJU SEMINAR «IMPROVE YOUR CLUB»

9-10 June 2018

Seminars for judo club coaches. Technical development for teaching young judoka aged 8 - 12 years.

The European Judo Union (EJU) believes that the education and development of judo club coaches/teachers should be treated with the same importance as that which is currently given to the growth of national teams and coaches. Local judo clubs are the starting point for national teams in each federation. For this reason, the EJU from this point onward, will increase the professionalism and preparation of judo club coaches/teachers in keeping with the focus on national teams and coaches.

Beginning of July 2013, the EJU Education sector and EJU Experts Commission developed the "Improve Your Club" project, a unique education programmes of seminars. These seminars serve the dual purpose of teaching club coaches/ teachers to effectively motivate young people aged 8 -12 years, and how to continue training and competing in judo.

KIDS FAMILY CAMP

11-16 June 2018

The core point will be – “Family and Judo” (parents and U8 children).

Judo training will be undertaken as a fun activity alongside other judo components. Parents will act as partners and as personal coaches.

It is desirable that parents will be on the tatami wearing judogi (whilst we appreciate that this is not always possible, we see it as necessary and we should aim for it).

During scheduled activity hours, we are also aiming:

- Maintaining “The diary of the participants in “Judo & Family” which will act as a record displaying the thematic section on history, the principles, judo etiquette, performance of creative tasks (drawing, applications) impressions, emotions and knowledge gained during the festival, showing growth and development every day.
- Judo history, judo etiquette, code of the judoka, (drawings, comments).
- Drawing up applications of different groups of receptions by feet, subcollar, deduction, etc.
- Code of the judoka: hieroglyphs and drawings of qualities (one for every day in the form of a flower on each petal).
- Drawing up a pyramid of success.
- Drawing up the general application of all participants by the principle poch-work from works of children and parents.
- Drawings (exhibition), the games (including and desktop - judo fitness for mind) attached to judo occupations.

OTC - OLYMPIC TRAINING CAMP

11-17 June 2018

The EJU Project “OTC. Going for Gold” was launched in 2010. The main target of the project was to help the best European athletes in their preparations toward the London Olympic Games.

The successful performance of European athletes in London has encouraged the EJU Executive Committee to continue the programme during the next Olympic cycle and to expand it to promising junior judoka – to include medallists from the European and world championships of their age group.

We believe that this programme will be successful and again lead to European athletes becoming the strongest at the Olympic Games in Tokyo.

CADETS — U18 TRAINING CAMP

9-16 June 2018

Training camp for young judokas for whom judo will become their everyday lifestyle. These age group will also train twice a day under the leadership of well-known experts.

POREČ

ABOUT THE FESTIVAL'S TOWN

POREČ

a city with a thousand-year history

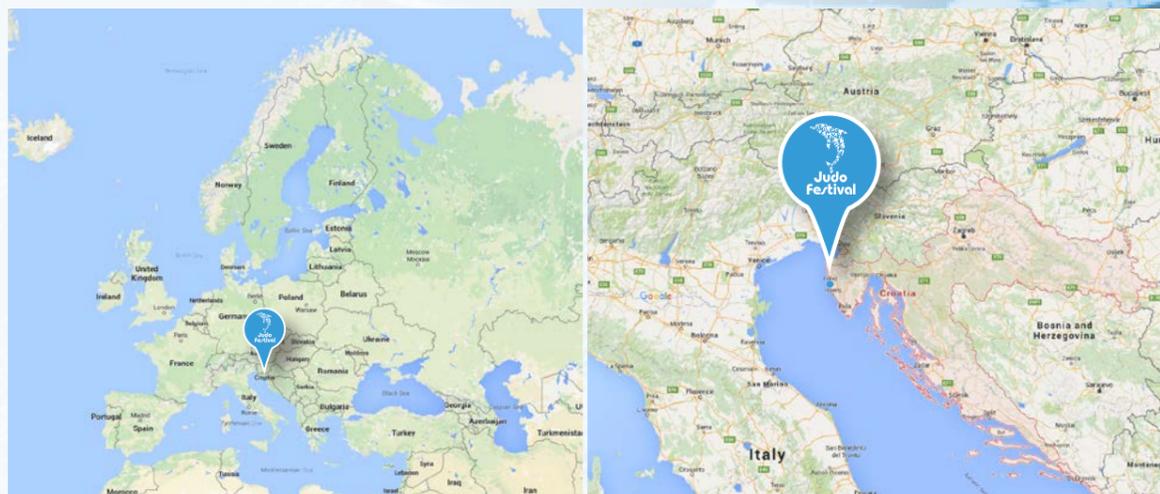

Poreč offers something for every taste - sports courts, restaurants, clubs, beautiful scenery and plentiful entertainment options for children. You'll find this and so much more in the hotels, camps and apartments of Laguna Poreč

A true gem of the Mediterranean, Poreč preserved the charm of a small coastal town, but has all the features and amenities of a tourist destination that will make your holiday interesting and pleasant. You will discover concerts of classical music and jazz, folklore festivals and street art, museums and galleries as well as countless shops and restaurants. During the tumultuous history of Poreč, the influence of different nations and cultures interweaved in this area - Histri, Romans, Ostrogoths, Franks, Slavic peoples, Venetians, Austrians... The precious cultural heritage can be noticed at every turn.

By taking a walk through Poreč you'll be passing through the same streets as the old Romans a long time ago. It was almost 2000 years ago when Poreč obtained the status of a city of the Roman Empire. Ever since the 3rd century it has been a diocese, and the town had self-government since as early as the 12th century. During the Austro-Hungarian Monarchy, in 1861 it was pronounced the seat of the Istrian parliament. Remains of the Roman sanctuary with temples, medieval fortifications, Romanesque, Gothic and Baroque palaces are well worth a visit. The Euphrasian Basilica built in the 6th century, with famous mosaics, which is protected by UNESCO holds a special place among them. Check for yourself why the Roman patricians built their luxurious villas and celebrated the beauty of life precisely in the Poreč area.

However, Poreč is much more than its rich history and cultural heritage. Today, Poreč and its surroundings are a tourist mecca and a perfect holiday destination, wherever you may stay - at a nice hotel, pleasant camping or any of the numerous comfortable apartments.

Poreč offers something for every taste - sports facilities, restaurants, night clubs, spectacular landscapes and plenty of amenities for children. You'll find all this, and much more, in hotels, campsites, villas and apartments of Laguna Poreč. Have a dream holiday in [Poreč](#), get to know [Istria](#), fall in love with [Croatia](#).
